

TROUT RIVER INDUSTRIES 2023 BROCHURE

WHEN A TRAILER
BECOMES A LEADER

INNOVATIVE. DURABLE. VERSATILE

Trout River Live Bottom Trailers are designed with our customers best interests in mind.

Whatever you are hauling, whether it's grain, aggregate, potash, lime, asphalt, topsoil, or more, the Trout River Live Bottom will deliver again and again all year long. With one of the strongest conveyor in the market, no job is too big or too small for the Live Bottom.

Unload anywhere, anytime, every time.

THE BULK HAULING SOLUTION

The Hycube trailer, which uses the same trusted technology as our live bottom trailer, has an 83" wide 3/8" multi-purpose belt and is designed to allow you to haul an increased payload.

The versatile trailer can haul agricultural products, mulch, sand, wood chips, soils, and so much more, making it the perfect fit for the waste, agriculture, and biosolids industries.

This trailer will help you make more money at more times of the year.

SMALL BUT MIGHTY

The Trout River Multi-Purpose Box is a truck-mounted unit that offers the same versatility, functionality, and safety as the Trout River Live Bottom trailer. This unit enables you to work in tight, confined spaces with no worries of overhead obstructions, and the 34" 3/8" all-season multi-purpose belt means you can haul more variety, with a better payload, and unload faster and more efficiently.
