

DUMP CHOCKS

The dump chock is an engineered solution that securely prevents unintended movement of unmanned dump truck bodies, reducing the risk of injuries or fatalities. TopROPS manufactures dump chocks in various sizes with working load limits (W.L.L.) up to 50,000 lbs to meet your specific needs.

Ensure the safety and stability of your dump truck bodies with TopROPS dump chocks, trusted for their quality, durability, and performance.

- Dump body movement is controlled by a dump lever inside the cab.
- Supports working load limit (WLL) up to 50,000 lbs.
- Custom tops available.

MODEL	PN	WEIGHT	CAPACITY	PRICE
DC-25	TS-0186-20	34 LBS	25,000 LBS	\$795.00
DC-50	TS-0186-10	51 LBS	50,000 LBS	\$920.00
